cally, Sustainably and Educationally Grown

### **Executive Summary**

**Towne's Harvest Garden (THG)** is a project that was initiated by the MSU Friends of Local Foods Student Organization. Friends of Local Foods was formed in the fall of 2006 to bring a diverse group of students and faculty together to raise awareness about local foods and to encourage sustainable lifestyles on campus and in the community. Since that first year of production, Towne's Harvest has become a cornerstone of the Sustainable Food & Bioenergy Systems Bachelor's Degree Program. Additionally, Towne's Harvest operates as a Community Supported Farm, distributing produce to CSA members, patrons of the MSU Campus Farm Stand, MSU students, and residents of nearby rural communities via the Community Food Truck. The mission of Towne's Harvest is to be a source of locally, sustainably, and educationally grown food for the campus and members of the surrounding community.

Towne's Harvest Garden completed its 9<sup>th</sup> production season in 2015. Many characteristics remained the same, but several notable changes also occurred. A major production alteration occurred in the sense that Professor Mac Burgess and Ph.D. candidate David Baumbauer provided additional crops from their season extension research. This year our field crops were primarily irrigated by hand line, as opposed to drip line which has been used in the past.

Additionally, several market alterations were made. Notably, we reduced the length of our Summer CSA from 14 to 12 weeks. Our intentions were to include more monetary value the last few weeks by increasing the quantity of storage crops distributed. We also provided more Student Summer CSA Shares at a discounted price, discontinued our Friday Student Produce Deal in exchange for offering a discounted Student Deal at our Campus Farm Stand, began selling flower bouquets at our Campus Farm Stand, and chose to focus on just two locations for the Community Food Truck (Belgrade and MSU Family and Graduate Housing).

This year we also received a grant to pay for the purchase and installation of a new stainless steel wash and prep station for our produce.

Direct costs this year added up to \$14,630.32 (excluding salaries) and our total income was \$33,268.90.

### **Our Story**

Towne's Harvest Garden (THG) was envisioned and initiated by Friends of Local Foods (FLF), a student organization at Montana State University. In 2006, with the help of faculty, FLF produced vegetables on 2 acres of land at MSU's Horticulture Farm. A partnership with the Gallatin Valley Food Bank enabled the success of the garden. Over the years, THG has increased in size (now 3 acres), structures (2 hoop houses and 1 heated greenhouse), partners, direct participants, associated staff, agricultural output, monetary revenue, and market expansion.

2015 marked our 9<sup>th</sup> growing season at THG. A student-led effort has become integral to the Sustainable Food and Bioenergy Systems degree program at MSU. These SFBS students (10-25 students/season) enroll in a summer-long practicum at THG to learn the basics of vegetable production and marketing. Additionally, THG has become incorporated into other programs, such as the Montana Dietetic Internship and an MSU Culinary Marketing course. Our markets now include a ~50 person Community Supported Agriculture (CSA) program, a farm stand located on the MSU campus, the Community Food Truck supplying low-access populations with discounted produce, and wholesale markets.

Over the years we have worked closely with Montana State University, the Sustainable Food and Bioenergy Systems degree program, the Department of Health and Human Development, the College of Agriculture (the Department of Land Resources and Environmental Sciences and the Department of Plant Sciences and Plant Pathology), the Horticulture Farm, the Gallatin Valley Food Bank, AARP, and many more.

We have found that Towne's Harvest Garden has been extremely valuable to many people and organizations over the years. Some of our most basic, highlighted attributes can boil down to these benefits that THG plays an active role:

- Educational tool
- Demonstration of sustainable agriculture and local food systems
- Interdisciplinary collaboration
- Student recruitment
- Campus and community outreach

## Mission, Vision & Values

**Towne's Harvest Garden Mission:** To offer interdisciplinary education opportunities, be an outdoor classroom for SFBS, and a source of locally, sustainably, and educationally grown food for the campus and members of the surrounding community.

### The Towne's Harvest Vision:

- + That Towne's Harvest will be a valuable and permanent part of MSU that is enthusiastically supported by the administration.
- + That Towne's is interdisciplinary center of education for any MSU department and is integrated into MSU as a classroom, research laboratory, and source of good food for the campus community.
- + That Towne's inspires students from diverse backgrounds to become involved in sustainable food production and consumption.
- + That Towne's continues to diversify crop production to include a large variety of vegetables, fruits, and animals.
- + That Towne's strengthens community food security in Bozeman and the surrounding area, increasing access to fresh nutritious produce for all.
- + That Friends of Local Foods remains a strong and active supporting student organization.
- + That Towne's continue to address all aspects of sustainability including ecology, economic viability, and social justice.

# **Organization & Schedule**

Involved	Role	Responsibilities
Alison Harmon	EHHD	Supervises Marketing & MDI
Bill Dyer	PSPP	Supervises Production
Bruce Maxwell	LRES	Oversees research
Carmen Byker Shanks	HHD	Culinary Marketing Instructor, Oversees research
Patrick Hatfield	ANRS	Oversees research
David Baumbauer	COA	Horticulture Farm Manager
Mac Burgess	PSPP	Practicum Instructor
Chaz Holt	Production Manager	Production
Kara Landolfi	Marketing Manager	Markets and CSA
Janet Gamble	HHD	Supervises Marketing, Culinary Marketing Instructor
Lindsay Ganong	MDI	MDI Supervisor
Practicum Students	SFBS	Field work, market assistance
Culinary Marketing Students		Field work, market assistance, President's Lunch
MDI Interns		Field work, market assistance
Gal Valley Food Bank		Community Food Truck partner
Madeline Kelly	Asst. Marketing Mgr.	Processing produce, Markets

# Harvest Data

+ 21,850 pounds of produce harvested

- 60+ plant varieties
- 2.4 acres in production
- 0.5 acre in cover crop
- 3 high tunnels
- + 215 dozen eggs collected

# **Income and Expense Summary**

This year Towne's Harvest Garden participated in a Community Supported Agriculture program, a Campus Farm Stand on the Montana State University campus (including a reduced priced Student Deal), a reduce-priced, low-access market (Community Food Truck), u-pick opportunities, and wholesale transactions.

2015 THG Income Summary	Total Sales
Community Supported Agriculture	\$22,258.48
Campus Farm Stand	\$6,861.82
Community Food Truck	\$1,397.67
Wholesale	\$1,970.92
CSA Market Sales	\$780.01
TOTAL 2015 Income	\$33,268.90

2014 THG Expenses	Amounts
Administration	\$1,867.90
Capitol Investment	\$707.07
Community Food Truck	\$84.50
Equipment Repairs/Fuel	\$2752.57
Facility Rental	\$3128.92
Marketing	\$886.40
Production Supplies	\$5,202.96
Total Expenses	\$14,630.32

\*Managerial salaries not included

# **Community Supported Agriculture**

Our Community Supported Agriculture (CSA) program consisted of several parts this year. CSA Shares included:

- Garden Starter Package
- Spring Greens Share
- Full Season Share
- Full Season Convenience Option\*
- Summer Share
- Student Summer Share\*
- Summer Share Convenience Option\*\*

- Shares were made available for purchase via PayPal or direct mail at the beginning of March. Information was available on <u>http://townesharvest.montana.edu</u>. Advertisements were conducted through email, Facebook, flyers hung up on campus, public service announcements (PSAs) on the local college radio station KGLT, additional Bozeman area event websites, Craigslist, and word of mouth.
- + Our CSA distributions were at the THG barn. The Marketing Manager and two students would arrange the distribution as a market style, with produce set out on tables, with signs labeling the crop and the quantity allocated to each share. Each week the distribution was on Wednesdays from 4-6:30pm.

\*The Convenience Options were continued after implementing last season. These shares were delivered to campus on Thursdays between 3-6pm for an additional fee. For the first seven weeks shares were delivered to members' offices. For the remaining 11 weeks, members came to the Campus Farm Stand to pick up their share.

\*\*Also continued from last season, we offered a student priced summer CSA share. This was an \$85 discount for college students interested in joining our farm for the season, receiving the same share as other Summer CSA Share members.

+ Each week an email was sent to all members as a reminder for the CSA distribution. Included in the email was a weekly newsletter providing recent news, names of produce provided, and recipe ideas.

### + Garden Starter Package (\$55)

- $\circ$  ~25 organic vegetable and herb plant starts and 8 packets of organic vegetable seeds (enough to plant 10'x16') distributed May 29th
- o 25 packages purchased (limited to 40)

### + Spring Greens CSA Share (\$165; \$27.50 value/week)

- o 6 weeks CSA pickup on farm (May 27-July 1)
- First part of Full Season CSA Share
- o 25 Shares (limited to 25)
  - 6 Spring Greens Shares only
  - 17 Full Season Shares (Spring and Summer Share combo)
  - 2 Full Season Shares Convenience Option
- + Summer CSA Share (\$385; \$27.50 value/week average, the last few weeks were ~\$40 to make up the difference)
  - o 12 week [\*14 week equivalent] CSA pickup on farm (July 8-Sept 23)
  - o Second part of Full Season CSA Share
  - o 51 Shares (limited to 65)
    - 11 Summer Shares only (1 free for MSU EHHD Dean)
    - 1 Summer Shares Convenience Option (\$415)
    - 17 Full Season Shares (\$540 Spring and Summer Share)
    - 2 Full Season Shares Convenience Option (\$580)
    - 20 Student Summer Shares (\$300 reduced price for students)

Share Option	Price	Shares	Duration	Total Sales
Garden Starter Package	\$55.00	25	~60 starts	\$1,331.30
Spring Greens	\$165.00	25	6 weeks	\$964.55
Summer Share only	\$385.00	11	12 weeks*	\$4131.77
Summer Share Convenience				
Option	\$415.00	1	12 weeks*	\$402.66
Summer Student Share	\$300.00	18	12 weeks*	\$5 <i>,</i> 838.00
Full Season	\$540.00	16	18 weeks*	\$8 <i>,</i> 464.44
Full Season Convenience Option	\$580.00	2	18 weeks*	\$1,125.76
Sales at Distribution	\$274.95			\$780.01
Total Sales				\$23,038.49

### Annual Report 2015

# **Campus Farm Stand**

The Campus Farm Stand (CFS) was our second longest enduring market, after our CSA program. For 13 weeks (from July 9-Oct 1, with one market cancelled due to weather), the Marketing manager and two students would set up a tent and tables with décor and produce just south of MSU's Student Union Building (SUB) on Thursdays from 3-6pm. Signs with arrows were placed on street corners directing traffic to the stand. Additionally, advertisements for the CFS were

conducted through PSAs on KGLT, submissions to several online and print event calendars, flyers hung up around campus, emails, and word of mouth.

This was the most profitable year we have had for the CFS. Six of our markets broke our longstanding \$500 market record, with our last market breaking \$1,000. This can be explained by a number of reasons including: more awareness, greater customer retention, and greater diversity, quantity and quality of produce offered.

\*As a requirement of MSU's NUTR221 Basic Human Nutrition course, ~400 students were assigned to visit the CFS to ask any question about THG or local produce. This drew a large number of students' attention to the presence of an on-campus farm stand.

\*Trialed this year was a weekly Student Deal (~\$11 produce), which was an assortment of abundant produce purchased together for \$7, providing a \$4-5 discount. This idea was an attempt to promote students to purchase and consume fresh, local produce. Approximately 30 students took advantage of the offering throughout the summer.

Campus Farm Stand Stats	
Number of Markets	12
High Market Sales	\$1,266.46
Low Market Sales	\$311.32
Average Market Sales	\$571.82
Total Sales	\$6,861.82

### **Community Food Truck**

This was the Community Food Truck's (CFT) fourth operating season (excluding its pilot season). The AARP grant that initially supported the project expired. Thus, as the second year without external funding, it was crucial to continue to measure the project's impact and sustainability. Partnership with the Gallatin Valley Food Bank allowed for the use of the vehicle and vehicle maintenance. A gift from donors paid for a portion of staff time to distribute food through the CFT.

The CFT traveled to two locations this year (down from four) to try and increase reliability and awareness. Locations included Belgrade (Clarkin Park in front of Lee and Dad's Grocery) and MSU Family & Graduate Housing (in the parking lot west of their office). Each Tuesday from July 14-September 22 the CFT set up a market display at the two locations. From 2-4pm the CFT was set up in Belgrade, and from 5-7pm was set up at MSU.

Produce was priced and sold at half the price marketed at our Campus Farm Stand. Additional partnership with the WIC office led to 23% (\$190) of our sales made using \$5 WIC Farmers' Market Nutrition Program vouchers.

Community Food Truck Stats	
Number of Locations	2
Days Operated	11
Number of Markets	23
High Market Sales (MSU)	\$100.39
Low Market Sales (Belgrade)	\$11.50
Average Market Sales	\$60.77
Total Sales	\$1,397.67
Community Food Truck Expenses	\$84.50

# Wholesale Summary

Wholesale	Amount
Culinary Marketing Course	\$48.48
Market Day Foods	\$330.50
Montana Dietetic Internship	\$657.79
MSU Affiliates	\$504.15
Preseason Egg Sales	\$186.00
Roots Cannery	\$154.00
Other	\$90.00
Total Sales	\$1,970.92

# President's Luncheon

The **9** students in MSU's SFBS 445R/541 Culinary Marketing Farm to Table course catered our President's Lunch at the end of July. Students utilized produce they helped harvest from THG, for a seasonally inspired menu. Approximately 70 individuals attended the luncheon. The lunch was served buffet style, and held in the tree grove at THG.

The Culinary Marketing students also participated in taste testing and market desirability tests during their time at THG.

### Towne's Harvest Garden 8th Annual President's Lunch

July 24, 2015

11:30am-1pm

### Program

Welcome & Introductions Menu Overview New at Towne's Harvest Garden in 2015 Sustainable Pood & Bioenergy Systems Degree Program Update Tour of Towne's Harvest Garden

### Today's Menu

Chilled and Curried Zucchini Soup

Towne's Summer Vegetable Barley Salad

Glazed and Braised Root Vegetables Crisp Parmhouse Pickles

> Herbed Summer Prittata Zuccheba Quiche

Montana Mint and Basil Pound Cake Western Squash Pudding Bars

> Berry Basil Lemonade Cucumber Mint Cooler

### **THG Practicum**

The SFBS 296 Practicum had **10 practicum students** in 2015. All were enrolled at MSU in the SFBS program. Students were split into two groups, with shifts from 8am-noon on Monday and Wednesday, or 1-5pm on Tuesday and Thursday. All students attended a Friday session from noon-3pm, which included lunch prepared by students and the practicum instructor.

The Friday lunch provided a chance for students to share their experiences from the week. Coordinated lessons and guest speakers were also scheduled to provide more academic lessons for the whole group. Topic examples included: native pollinators, honey bee production, soil science, grain production, compost economics and farm startup experiences.

Additionally, students were responsible for conducting an independent research project at THG during the summer. Example projects included water usage, compost creation, chicken tending, and sweet corn production. During a Horticulture Farm field day the students presented their results to attendees.

Practicum students were also responsible for assisting the Marketing Manager preparing produce and working at CSA distribution and the Campus Farm Stand.

One of the last days of the semester the Practicum students and Culinary Marketing students also help a wood oven pizza party to celebrate the end of the summer.

# Montana Dietetic Internship

The Montana Dietetic Internship has a Sustainable Food System concentration. At the beginning of their internship, **20 interns** each have a two-week rotation at Towne's Harvest Garden, learning the intricacies within our local food system, along with basic vegetable production and harvesting skills, produce handling, marketing, and distribution of THG produce. Additionally, interns cooked lunch for their group every day using produce they harvested from THG. Three, two-week rotations (of 7,7 and 6 interns) were seen at THG. Each rotation took produce to cook with, preserve, and prepare a larger meal for extended faculty and staff or other group to expand on their experience and knowledge they took from THG.

# Research

### Research at Towne's Harvest Garden

- Mac Burgess, PhD. Specialty Crop Block Grant funded research on vegetable variety evaluation. Test 10 varieties each of yellow storage onions, green romaine lettuce, carrots, green beans, and cucumbers.
- + Kelly Kjorlien Undergraduate Scholars Program (Mac Burgess, Advisor). What Is The Best Cover Crop for Organic Vegetable Growers in Montana.
- + Charles Holt, M.S. candidate. Studying the comparisons between mowing or grazing cover crops and the relationships between weed densities to multiple species of vegetable crops and their marketable yield.
- + Tony Hartshorn, PhD. Soil research looking at carbon emissions, timing and volume, from different compost mixtures incorporated into the soils; introductory soils lab class uses THG for observing soil attributes in the valley such as type, depth, and structure.
- Casey Delphia, PhD. Entomology research assessing the effects of native flowering plants potential to draw in or create habitat for native pollinator species on vegetable crop yields.
- + Sean McKenzie, M.S. candidate. Studying the comparisons between mowing or grazing cover crops and the relationships to beetle populations, soil temperature, soil moisture, weed diversities, weed densities.
- + Greg Johnson, PhD. Studied livestock/veterinary entomology.

### Activities, Tours & Events

At the beginning of the Practicum, all students and main THG staff participated in a team building activity including a ropes course. The exercises aided in the group's overall rapport for the summer. Additionally, everyone broke into groups and prepared lunch items to share. This activity has been planned to continue in the future to help introduce students at the beginning of the season. Additionally, a private Facebook group was created to allow the Practicum students a resource to communicate and plan events with each other.

Scheduled tours were held throughout the summer to any group or individual. For example, tours were provided at the annual President's Luncheon, for the "Little Explorers" preschool group, and additional MSU stakeholders and potential donors.

At the start of the Fall Semester, the Friends of Local Foods student club hosted a

Welcome Back Hoedown at the farm. An estimated 75 people came to the potluck/wood oven pizza making party with live music performed by students in the SFBS program.

### **CSA Membership Options**

**All members** – Along with your weekly vegetables, we will provide you with a THG reusable bag your first visit, which we will ask you to bring back each week to carry your vegetables home in. We will also send you a weekly, online newsletter describing your share of the harvest and recipes to help utilize your veggies! As a member, you will be the first to be informed about exciting events and any additional produce bundles for sale towards the end of the season. Finally, you will be respected and shown a season's worth of gratitude for supporting Towne's Harvest Garden through yet another year!

• **Full Season Share** (18 weeks [20 week equivalent] May 27-September 23 - *Wednesday farm pickup 4-6:30pm*)

\$540 (\$10 discount!)

This share combines the Spring Greens Share and Summer Share, along with a discount. This year, *the last two weeks of distribution will be doubled in size.* We are going to load you up with storage crops during these final two weeks, so you don't have to make more trips to the farm than necessary! You will still receive the same monetary value of produce as if it were a 20 week CSA, but the last couple weeks you will receive double the normal weekly amount.

• **Spring Greens Share** (6 weeks May 27-July 1 - *Wednesday farm pickup 4-6:30pm*)

\$165 Limited Supply - only 25 shares available! This share provides 25 lucky members with pre-season produce along with those ever-desirable fresh farm eggs! A variety of greens will fill your refrigerator drawers each week, accompanied by herbs, ½-1 dozen farm-raised chicken eggs, and any additional early season vegetables and fruits that we are able to offer. Start your summer off right!

• **Summer Share** (12 weeks [14 week equivalent] July 8-September 23 - *Wednesday farm pickup 4-6:30pm*)

\$385

This is our normal summertime share (with a bit of a tweak), which will include all of the crops we have planted, with more variety as summer progresses! Each week you will visit the farm and pick out your specific bundle of vegetables in our barn, supplying produce for an average family of 2-4 people. Knowledgeable MSU students and interns will be there to answer all of your questions. This year, *the last two weeks of distribution will be doubled in size.* We are going to load you up with storage crops during these final two weeks, so you don't have to make more trips to the farm than necessary! You will still receive the same monetary value of produce as if it were a 14 week CSA, but the last couple weeks you will receive double the normal weekly amount.

Additional Shares Continue on the Next Page

Page 2 of 4

 Summer Share Convenience Option (12 weeks July 9-September 24 Thursday MSU campus pickup outside the SUB, by the Noodle on 7<sup>th</sup> and Grant 3-6pm) \$415
 \*Continued from last year\*

This option provides the same produce as our Summer Share, but is delivered to the MSU campus for those who cannot get away or have busy Wednesday night schedules. The increased price represents additional time, fuel and packaging costs associated with the drop-off. Contact the Marketing Manager Kara to determine if additional accommodations can be made.

• Full Season Convenience Share (18 weeks May 28-September 24 *Thursday MSU campus pickup outside the SUB, by the Noodle on* 7<sup>th</sup> and Grant 3-6pm) \$580 (\$10 discount).

This is a combination of our Spring and Summer Shares, but delivered to campus. Actually, the first 6 weeks will be delivered *right to your office*! After that, you can join us at the Campus Farm Stand on Thursdays to pick up the remaining 12 shares.

Garden Starter (One time pickup – Friday May 29 – farm pickup)
 \$55 Limited Supply – only 40 shares available!

We are continuing this package from last year, with some revisions. We will provide  $\sim$ 25 valuable transplants along with  $\sim$ 8 packages of seeds. There will be enough starts and seeds to fill a plot of land or raised bed area of approximately 10'x16'. Included will be instructions on how to plant and maintain your garden throughout the summer. Plant starts will include tomatoes, peppers, basil, broccoli, and onions. Seeds packets will include squash, zucchini, cucumber, spinach, carrots, beans, peas and lettuce. Starts will be hardened off and ready to plant, weather permitting! All seeds, starts and soil will be organic.

 Student Summer CSA Share (12 weeks [14 week equivalent] July 8-September 23 - Wednesday farm pickup 4-6:30pm) \$300

This discounted share is designated for STUDENTS ONLY. A current student ID is required. This is the same as the Summer Share. As students, this share may be split among housemates to further reduce costs. We sincerely wish to increase student veggie consumption, so tell all the students you know!

Donations (donation checks may be post-dated)

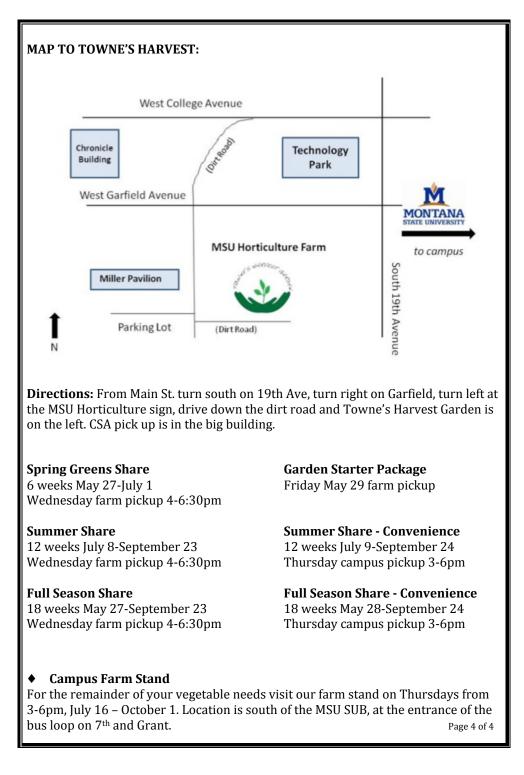

For every \$25 you donate to support THG, you will receive \$5 in THG Market Bucks, eligible for redemption at any of our farm stand markets.

Donors offering \$100 will also receive a THG hat of their choice, along with \$20 in market bucks.

Tax-deductible donations can be made through the MSU Alumni Foundation. Contact Sofie Malinowski: <u>sofie.malinowski@msuaf.org</u>.

• *Additional late season and storage shares* will be offered towards the end of the season, depending on availability and productivity. Check back with THG if you are interested later in the season. We already appreciate your continued interest!

# Appendix – Garden Starter Info

# garden starter share

With adequate soil fertility, just add water! Happy gardening!

### Tomatoes

A random assortment of varieties including Big Beef, Black Cherry, Striped German, and Green Zebra. After risk of frost plant root stock 1" under the soil, 12" apart.

### Peppers

A variety of peppers including mild Yankee Bell, and hot Havasu and Antohi Romanian . After risk of frost plant deeper than the root stock, 8" apart.

### Broccoli

A veggie we all know and love! Harvest before head begins to bud out. Plant 8" apart. Continue to harvest secondary shoots to encourage production.

### Basil

Very fragrant and flavorful herb. After risk of frost plant 8" apart. Harvest top leaves to encourage additional growth. Very sensitive to cold temperatures.

### Parsley

Freshen up meals with this vibrant herb. Plant 8" apart. Very cold tolerant, continue to harvest past frosts.

### Onions

Yellow storage onions. Plant 6" apart, 1" under the soil.

#### Squash

Yellow flavorful straight neck squash. Plant 12-24" apart, 1" deep. Extras make friends with neighbors!

### Zucchini

Green zucchini ready to produce. Plant 12-24" apart.

### Cucumber

Green slicing cucumbers. Plant 12-24" apart.

### **Snap Peas**

Plant 2" apart, ½" deep. Harvest peas as they are ready, but good luck bringing them inside, they often turn into garden snacks!

### Green Beans

Plant 2" apart, 1" deep. Harvest beans as they are ready, look under those leaves!

### Carrots

These seeds are pelleted for more accurate planting. Plant 1" apart, %" deep. Carrots don't germinate for a couple weeks, so be sure to keep the weeds at bay.

### Spinach

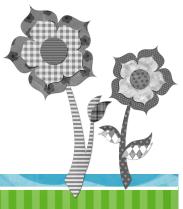

Plant 1" apart, %" deep. Harvest leaves when full size, before bolting. Continue to harvest until plant stops producing.

### **Mixed Salad Greens**

A mixture of leafy greens. Sprinkle seeds, and lightly cover with soil. Continual clipping of greens should allow for multiple harvests.

Thank you for your support this season by purchasing a Garden Starter Share from MSU's Towne's Harvest Garden! Your continual participation allows THG to teach students organic farming practices, to become the next generation of food producers! Be sure to stop by our Campus Farm Stand July 9 - October 1 on Thursdays 3-6pm for the remainder of your vegetable needs!

Thanks & see you next year! ~ Kara, Chaz and the THG crew

### This Issue:

Featured Recipes.....2 Student Slot......3 Meet the Managers..4

### The start to a new season!

Towne's Harvest Garden is in its 9<sup>th</sup> season, and so far off to a good start! The warm weather has really brought the farm to life this summer. This year we have 10 practicum students working at the farm, from the Sustainable Food and Bioenergy Systems degree program. So far they have been enjoying themselves, feel free to ask what they have learned thus far! These students will one day be producing, distributing, or cooking your food - so start getting to know

them now! To promote this, each week we will dedicate a slot to a student. This issue will also include introductions to the 2015 Production and Marketing Managers at THG. The next few weeks of CSA will be manned by MSU's Culinary Marketing: Farm to Table Class, so even more faces to get to know!

Best, Kara and the THG crew

# Appendix – Sample CSA Newsletter Cont.

This week's featured recipe ideas!

July 8, 2015

Scape Pesto Bag of basil 1-2 garlic scapes 2 T parmesan cheese 2 T oil 3 T walnuts Pinch of salt Splash of lemon juice

Combine ingredients in a food processor or blender. Blend into a pesto consistency. Serve on pizza, pasta or toast.

### How do I go about using my produce?

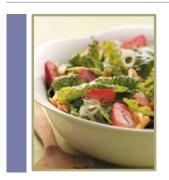

My biggest recommendation is to experiment. Just try things. Try produce raw, try it cooked. You are the best judge as to what you like and want to eat. Our crew of practicum students will be more than happy to answer questions, but don't forget to ask friends, the internet, even your mom (she does know best).

A great resource I strongly encourage you all to explore is <u>www.FoodGawker.com</u> This site compiles scrumptious recipes with appetizing 'foodography'.

Most produce will keep longest in plastic bags in the fridge. If you are unsure on how to store food each week, ask us and we will give you our best recommendations.

I hope this summer you all can explore, leave your comfort zones, and enjoy truly fresh and tasty food.

### **Recipe Ideas**

- Strawberry and romaine salad with creamy poppy seed dressing and toasted chopped almonds
- + Sautéed chard or spinach
- + Chopped mizuna on tacos or burritos
- + Romaine leaf tacos
- Quiche with green onions and sautéed greens
- + Beet, arugula, feta cheese, and walnut salad

## Appendix – Sample CSA Newsletter Cont.

July 8, 2015

+

# Student Slot Thomas Ward Jr.

Hometown: Libertyville, Illinois

Tommy came to Montana to experience the state's phenomenal skiing and fishing opportunities. He originates from a traditional Midwest farm. In high school, Tommy became interested in sustainability and how it is affected by the choices you make. He is now enrolled in MSU's Sustainable Food and Bioenergy Systems program.

Tommy has lots of family, some of whom work in agriculture. His

grandmother owns a farm and wants to see it transformed into a more sustainable farm entity. Though he has considered this opportunity, Tommy may first work for his uncle's fish farm to learn that system. In the end, Tommy hopes to reside in a place like Montana.

Favorite Food: Rib eye steak with mashed potatoes and caramelized onions.

## Appendix – Sample CSA Newsletter Cont.

July 8, 2015

# Meet the Managers

### Chaz Holt

Production Manager Home state: Georgia

Chaz grew up in a family of farmers, but saw the profitability and accessibility of farming dwindle before his eyes. He was determined to grow food, and has made his dream a reality. Chaz has lived in Montana for 15 years, and been our farmer at THG for the past 6 seasons. He has also assisted other local farmers in the creation of their businesses. It's hard to not find Chaz smiling away in the outdoors, particularly with his fabulous wife and three adorable children.

### Kara Landolfi

Marketing and Operations Manager Hometown: Missoula, MT

This is Kara's second season coordinating THG's markets and CSA program. She is also pursuing a graduate degree at MSU in Sustainable Food Systems. Kara strives to procure as much food as she can through hunting, gardening and foraging, all of which she has learned since moving to Bozeman. Her favorite activities include hiking, backpacking, skiing, hunting, biking, and simply enjoying Montana's abundant beauty with her adventurous partner.

# Appendix – PSA's

#### KGLT PSA submission beginning of April

Summer is almost here, and that means fresh produce from Towne's Harvest Garden! Prepurchase your CSA share of organic vegetables from MSU's student farm before they're gone! We are offering <u>Spring</u>, Summer, and Full Season CSA's – there's even a student discount! We also have Garden Starter Packages. Make your summer food an experience by becoming a member of Towne's Harvest Garden. For more info check out TownesHarvest Montana Edu or. 406-396-0873.

#### Beginning of May on Craigslist

### Garden Starter Package - organic plants and seeds - \$55 (Bozeman -)

Bozeman's student farm is selling packages of organic plants and seeds for home gardeners! Be sure to look for more information at http://townesharvest.montana.edu/csa.html

#### Garden Start Package

(One time pickup --Friday May 29 -- farm pickup off 19th and Garfield at the MSU Horticulture Farm)

\$55 Limited Supply -- only 40 shares available! You sign up online through PayPal or by sending in a check to the address on the website.

We are continuing this package from last year, with some revisions. We will provide ~25 valuable transplants along with ~8 packages of seeds. There will be enough starts and seeds to fill a plot of land or raised bed area of approximately 10'x16'. Included will be instructions on how to plant and maintain your garden throughout the summer. Plant starts will include tomatoes, peppers, basil, broccoli, and onions. Seeds packets will include squash, zucchini, cucumber, spinach, carrots, beans, peas and lettuce. Starts will be hardened off and ready to plant, weather permitting! All seeds, starts and soil are organic.

Bozeman Magazine event submission for Campus Farm Stand click repeat weekly The community is welcome to join Towne's Harvest Garden at their Campus Farm Stand on the MSU Campus. Located on 7th and Grant, at the entrance of the bus loop. We offer certified organic vegetables grown by the students themselves at competitive prices! <u>Thursdays 3-6pm</u>.
